

Command

```
classDiagram
    class Command
    class mailSMTPCommand["mail::SMTPCommand"]
    class mailSMTPRSET["mail::__SMTP_RSET"]
    Command <|-- mailSMTPCommand
    mailSMTPRSET <|-- mailSMTPCommand
```

The diagram illustrates a class hierarchy. At the top is the 'Command' class, represented by a white box with a thin grey border. Below it is the 'mail::SMTPCommand' class, shown as a white box with a thick black border. At the bottom is the 'mail::__SMTP_RSET' class, depicted as a grey box with a thick black border. Two blue arrows indicate inheritance: one points from 'mail::SMTPCommand' up to 'Command', and another points from 'mail::SMTPCommand' up to 'mail::__SMTP_RSET'.

mail::SMTPCommand

mail::__SMTP_RSET
